# Projects

**AWS S3 Bucket Creation and File Management**\

- Configured FileZilla Server and Client to automate secure file transfer between two local machines, improving file management efficiency.
- Designed and implemented an AWS S3 bucket for scalable and secure cloud storage.
- Configured bucket policies, IAM roles, and access controls to manage permissions effectively.
- Implemented versioning and lifecycle policies for efficient storage management and gained hands-on experience with AWS services, cloud architecture.

**File Transfer Automation Using FileZilla**

• Set up and configured FileZilla Server and Client for secure file transfer between two machines on a local network.
• Managed FTP user accounts, permissions, and directories to ensure controlled access.
• Performed file transfers and tested data integrity across different operating systems.
• Gained hands-on experience with FTP protocols, client-server networking, and secure data transfer methods.

# Achievements

- Java and Database Foundation – Oracle Academy
- Introduction to Cybersecurity – CISCO
- Introduction to Data Science – CISCO
- Introduction to R – Infosys Springboard

# Strengths

- Quick learner and adaptive to new technologies
- Strong problem-solving and analytical skills
- Excellent time management and organizational abilities
- Self-motivated and goal-oriented
- Detail-oriented with a focus on accuracy

# Languages Known

Hindi, Telugu, English
